MASTER PARTS AND ACCESSORIES ILLUSTRATION CATALOG

FORM FP 7635-B

FORD PARTS and SERVICE DIVISION

GENERAL INSTRUCTIONS

This Ford Car Master Parts Catalog contains parts illustrations for Bronco, Fairlane/Torino, Falcon, Ford, Maverick, Mustang, Pinto and Thunderbird for model years 1965 to 1972 for U.S. and Canadian built vehicles.

Use this Illustration Catalog in conjunction with the Text Catalog, form FP 7635-A.

For greater convenience this catalog is divided into specific sections, such as brakes, front suspension, engine, transmission, etc. For example, FRONT SUSPENSION appears in Section 30, STEERING in Section 35, REAR AXLE in Section 40, etc.

A separate catalog which contains the text or descriptive information for the same model year is available as form FP 7635-A. The Text Catalog is divided into sections also and like parts are shown under similar section numbers in both the Text and Illustration Catalogs.

A listing of Ford group numbers and their related section numbers appears in the General Information Section of the Text Catalog, form FP 7635-A.

Illustrations contain group numbers only, therefore, it is necessary to refer to the group within the text catalog listing for complete applicable part number.

The driver's side is the left hand side of the vehicle and determines whether such parts as fenders, lamps, etc. are right or left hand.

Model year application is indicated by showing the first year followed by a diagonal line to indicate continued usage in all subsequent years until the insertion of the last year of usage, which is shown after the diagonal line. If no diagonal line is shown the part is applicable only to the year shown.

Example:

65/72 indicates part used 1965 through 1972 model years
65 indicates part used 1965 model year only

For Warranty Plate or Certification Label Data, Catalog Model Codes and Body Type Codes refer to the General Information Section of the Text catalog, form FP 7635-A.

The various car lines and their body types are identified by vehicle catalog codes and body type codes in the text catalog as follows -

VEHICLE	CATALOG CODE

PROCEDURE FOR USING CATALOG

There are three ways of finding part numbers

1. By Part Name
2. By Illustration
3. By Identification

Should an inquiry be received for a rear brake backing plate for a 1965 Thunderbird -

BY PART NAME

A. Refer to the Chassis Parts Alphabetical Index in the Text Catalog, form FP 7635-A.
B. Refer to the alphabetical nomenclature and find the part name "Plate (rear brake backing)". The group number listed is 2211-2.
C. Refer to group number 2211-2 and locate 1965 in the "YEAR" column. Find the vehicle catalog code "S" (for Thunderbird) in the "MODEL" column.
D. The part numbers shown are C6SZ 2211-A for right hand and C6SZ 2212-A for left hand.

BY ILLUSTRATION

A. Refer to the tabbed divider marked "WHEELS, BRAKES" in this catalog.
B. Refer to the index immediately behind the divider and find the illustration titles for 1965 S(Thunderbird).
C. Under the heading "BRAKES" find the "Brake details (drum rear)" illustration for the 1965 S(Thunderbird).
D. Refer to the illustration designated (on page 4 of Illustration Section 20. 1) and find the group number for the rear brake backing plate to be 2211-2.
E. Refer to group number 2211-2 in the Text Catalog and locate 1965 in the "YEAR" column. Find the vehicle catalog code "S" (for Thunderbird) in the "MODEL" column.
F. The part numbers shown are C6SZ 2211-A for right hand and C6SZ 2212-A for left hand.

BY IDENTIFICATION

Certain parts and most major assemblies are identified with a part number shown on an attached tag or plate or on the part itself. Reference to identification numbers is made throughout the catalog and cross reference charts are included in some sections to provide immediate knowledge of the service part number when the identification number is known. All identification information other than charts will be preceded by the symbol (#). IMPORTANT - Identification tags and plates must be retained with the part or assembly with which they are originally supplied.

HOW TO ORDER PARTS

When ordering parts, always give the complete part number.
In the event the part number is not known, the following information should be included.

A. Complete description of part.
B. Model year and body type.
C. Dimension, number of teeth, size, etc., if possible rough sketch of part.
D. If applicable to engine, transmission, axle, steering, etc., specify type, such as 400 cubic inch, Automatic Transmission, Power Steering, etc.
E. Advise how shipment is to be made - Freight, Express, Air, Parcel Post.

EXPLANATION OF SYMBOL ★

★ Symbol indicates part is not supplied for service due to the following

a. Part is superseded and replaced as indicated in the description column of the text catalog.
b. Part can be improvised as indicated in the description column of text catalog.
c. Due to its function there would be little or no demand.

NOTE - ALWAYS REFER TO THE DESCRIPTION COLUMN OF THE TEXT FOR POSSIBLE SUBSTITUTION, OR FOR MATERIAL SPECIFICATIONS AND DIMENSIONS WHICH MAY BE HELPFUL IN OBTAINING THE NON-SERVICED PART LOCALLY.
