Z	
Zipper (folding top back curtain)	53278

THE SOFT TRIM SECTION INCLUDES ONLY THOSE ITEMS WHICH WERE AVAILABLE FOR SERVICE AT THE TIME OF PRINTING. ITEMS NOT SHOWN IN THE CATALOG MUST BE IMPROVISED OR PROCURED LOCALLY.

INSTRUCTIONS

Determine correct Group Number by referring to an appropriate illustration in the Interior Trim Section of the Illustration Catalog, Form AF-7635-B or to the Soft Trim Index of this catalog. Identify Model, Body Type and Trim Code by referring to 1965 Warranty Plate Codes as shown in the General Information Section.

The 1965 Soft Trim Section consists of: (1) Trim Scheme Codes and Swatches (Pages A1, A2, A3, B, etc.). (2) Listing of Soft Trim Parts for all Ford (A), Fairlane (B), Mustang (F), Thunderbird (S) and Falcon (X) models.

TRIM SCHEME CODE and SWATCHES

Consists of: (1) Listing of Trim Scheme Codes arranged in order of model, i. e. Ford, Fairlane, etc. (2) Colored Swatches identified by a number beside the swatch.

How to use: (1) Identify Model, Body Type and Trim Code and apply this information to listing of Trim Scheme Codes. (2) Determine Swatch Identification Numbers and refer to Colored Swatches on page B, etc. (3) Locate appropriate swatches to verify the color and/or pattern of the principle materials used in the unit.

Colored Swatch pages are primarily for verification of color and/or pattern and do not indicate the type or weight of material.

For example, to determine which Swatches make up Trim Code 32 on Ford Four Door Sedan refer to page A1, A2, etc.

As shown on page A1 (Ford) Trim Code 32 indicates: (1) Body types (54B, 62B). (2) Trim scheme description (Light blue crinkle vinyl and medium blue frost stripe cloth). (3) Door and quarter material (swatch no. 56 & 58), bolster material (swatch no. 56), cushion and back material (swatch no. 12) and headlining material (swatch no. 129).

SOFT TRIM PARTS for ALL MODELS

Consists of: (1) Parts cataloged by trim code and color (e. g. Group 02344-5, 24346-7, etc.). (2) Parts cataloged by trim code only (e. g. Groups 23942-3, 62900, etc.). (3) Miscellaneous parts (e. g. Groups 47042, 64824, etc.).

PARTS CATALOGED BY COLOR: (1) Identify Model, Body Type and Color of desired part. (2) Determine Group Number of Part. (3) Locate appropriate Trim code and Color listed at top of page. Trim codes generally applicable to each color are also shown above the colors as an additional aid. NOT INCLUDED are 3 digit trim codes such as 15A or 151. Colored parts required for 3 digit trim codes (15A or 151) will be the same as for the 2 digit equivalent (in this case 15). On some vehicles the colors and trim codes may not agree with this catalog due to late changes or customer request. When color of part is in doubt refer to the list of Trim Codes and Colored Swatch pages for further identification. (4) Match Color with Model and Body Type to select desired part number.

For example, should a Blue Front Floor Carpet (Group 13000) be desired for a Mustang Two Door Hardtop. (1) Refer to Group 13000. (2) Read list of Colors above title to find Blue. (3) read down to find F (65). (4) Part number shown in C5ZZ 6513000 and suffix in "Blue" column is AAD.

PARTS CATALOGED BY TRIM CODE: (1) Identify Model, Body Type and Trim Code. (2) Determine Group Number of part. (3) Locate appropriate Trim Code (listing of Trim Codes precedes each Body Type). (4) Match Model and Body Type with Trim Code to select part number.

For example, should a R.H. Front Door Trim Panel (Group 23942-3) be desired for a Mustang Two Door Hardtop, Trim Code 26. (1) Refer to Group 23942-3. (2) Read down to locate F(65A). (3) Read trim codes (listed numerically) to find Trim Code 26. (4) Part number shown is C5ZZ 6523942 and suffix listed is AAB.

THE SOFT TRIM SECTION INCLUDES ONLY THOSE ITEMS WHICH WERE AVAILABLE FOR SERVICE AT THE TIME OF PRINTING. ITEMS NOT SHOWN IN THE CATALOG MUST BE IMPROVISED OR PROCURED LOCALLY.

INSTRUCTIONS

Determine correct Group Number by referring to an appropriate illustration in the Interior Trim Section of the Illustration Catalog, Form AF-7635-B or to the Soft Trim Index of this catalog. Identify Model, Body Type and Trim Code by referring to 1966 Warranty Plate Codes as shown in the General Information Section.

The 1966 Soft Trim Section consists of: (1) Trim Scheme Codes and Swatches (Pages A1, A2, A3, B, etc.). (2) Listing of Soft Trim Parts for all Ford (A), Fairlane (B), Mustang (F), Thunderbird (S), Bronco (U) and Falcon (X) models. (Pages 1 to end).

TRIM SCHEME CODE and SWATCHES

Consists of: (1) Listing of Trim Scheme Codes arranged in order of model, i.e. Ford, Fairlane, etc. (2) Colored Swatches identified by a number beside the swatch.

How to use: (1) Identify Model, Body Type and Trim Code and apply this information to listing of Trim Scheme Codes. (2) Determine Swatch Identification Numbers and refer to Colored Swatches on page B, etc. (3) Locate appropriate swatches to verify the color and/or pattern of the principle materials used in the unit.

Colored Swatch pages are primarily for verification of color and/or pattern and do not indicate the type or weight of material.

For example, to determine which Swatches make up Trim Code 32 on Ford Four Door Sedan refer to page A1, A2, etc.

As shown on page A1 (Ford) Trim Code 32 indicates: (1) Body types (54B, 62B). (2) Trim scheme description (Light blue crinkle vinyl and dark blue eaton pattern cloth). (3) Door and quarter material (swatch no. 57 & 98), bolster material (swatch no. 57), cushion and back material (swatch no. 51 & 57) and headlining material (swatch no. 137).

SOFT TRIM PARTS for ALL MODELS

Consists of: (1) Parts cataloged by trim code and color (e.g. Group 02344-5, 24346-7, etc.). (2) Parts cataloged by trim code only (e.g. Groups 23942-3, 62900, etc.). (3) Miscellaneous parts (e.g. Groups 47042, 64824, etc.).

PARTS CATALOGED BY COLOR: (1) Identify Model, Body Type and Color of desired part. (2) Determine Group Number of Part. (3) Locate appropriate Trim code and Color listed at top of page. Second character of trim code generally applicable to each color is also shown above the color as an additional aid. When color of part is in doubt refer to the list of Trim Codes and Colored Swatch pages for further identification. (4) Match Color with Model and Body Type to select desired part number.

For example, should a Black Rear Floor Carpet (Group 13046) be desired for a Falcon Four Door Sedan: (1) Refer to Group 13046, (2) Read list of Colors above title to find Black. (3) Read down to find X(54). (4) Part number shown is C6DZ 5413046 and suffix in "Black" column is AAH.

PARTS CATALOGED BY TRIM CODE: (1) Identify Model, Body Type and Trim Code. (2) Determine Group Number of part. (3) Locate appropriate Trim Code (listing of Trim Codes precedes each Body Type. (4) Match Model and Body Type with Trim Code to select part number.

For example, should a L.H. Front Door Trim Panel (Group 23942-3) be required for a Mustang Two Door Hardtop, Trim Code 62. (1) Refer to Group 23942-3. (2) Read down to locate F(65B). (3) Read trim codes (listed numerically) to find Trim Code 62. (4) Part number shown is C6ZZ 6523942 and suffix listed is BGA.

3 DIGIT TRIM CODES

Parts for 3 digit trim codes ending with an alphabet (e.g. 15A) are listed with parts cataloged by trim code.

Parts for 3 digit trim codes ending with a numeral (e.g. 151) are not cataloged. Refer to the listing of trim codes to determine which parts are available through service. For parts which are not available for service contact your Service Representative, who will process in accordance with General ICC bulletin No. 7526.

THE SOFT TRIM SECTION INCLUDES ONLY THOSE ITEMS WHICH WERE AVAILABLE FOR SERVICE AT THE TIME OF PRINTING. ITEMS NOT SHOWN IN THE CATALOG MUST BE IMPROVISED OR PROCURED LOCALLY.

INSTRUCTIONS

Determine correct Group Number by referring to an appropriate illustration in the Interior Trim Section of the Illustration Catalog, Form AF 7635-B or to the Soft Trim Index of this catalog. Identify Model, Body Type and Trim Code by referring to 1967 Warranty Plate Codes as shown in the General Information Section.

The 1967 Soft Trim Section consists of: (1) Trim Scheme Codes and Swatches (Pages A1, A2, A3, B, etc.). (2) Listing of Soft Trim Parts for all Ford (A), Fairlane (B), Mustang (F), Thunderbird (S), Bronco (U) and Falcon (X) models. (Pages 1 to end).

TRIM SCHEME CODES and SWATCHES

Consists of: (1) Listing of Trim Scheme Codes arranged in order of model, i.e. Ford, Fairlane, etc. (2) Colored Swatches identified by a number beside the swatch.

How to use: (1) Identify Model, Body Type and Trim Code and apply this information to listing of Trim Scheme Codes. (2) Determine Swatch Identification Numbers and refer to Colored Swatches on page B, etc. (3) Locate appropriate swatches to verify the color and/or pattern of the principle materials used in the unit.

Colored Swatch pages are primarily for verification of color and/or patternand do not indicate the type or weight of material.

For example, to determine which Swatches make up Trim Code 3B on Ford Four Door Sedan refer to page A1, A2, etc,

As shown on page A1 (Ford) Trim Code 3B indicates: (1) Body types (54B, 62B). (2) Trim scheme description (Light blue crinkle vinyl and medium blue ellipse pattern cloth). (3) Door and Quarter material (swatch no. 178 & 33), bolster material (swatch no. 178), cushion and back material (no. 33, 163 & 178) and headlining material (swatch no. 35).

SOFT TRIM PARTS for ALL MODELS

Consists of: (1) Parts cataloged by trim code and color (e.g. Group 02344-5, 24346-7, etc.). (2) Parts cataloged by trim code only (e.g. Groups 23942-3, 62900, etc.). (3) Miscellaneous parts (e.g. Groups 47042, 53700. etc.).

PARTS CATALOGED BY COLOR: (1) Identify Model, Body Type and Color of desired part. (2) Determine Group Number of part. (3) Locate appropriate Trim code and Color listed at top of page. Second character of trim code generally applicable to each color is also shown above the color as an additional aid. When color of part is in doubt refer to the list of Trim Codes and Colored Swatch pages for further identification. (4) Match Color with Model and Body Type to select desired part number.

For example, should a Red Rear Floor Carpet (Group 13046) be desired for a Mustang Two Door Hard top: (1) Refer to Group 13046. (2) Read list of Colors above title to find Red. (3) Read down to find F(65). (4) Part number shown is C7ZZ 6513046 and suffix in "Red" column is A1D.

PARTS CATALOGED BY TRIM CODE: (1) Identify Model, Body Type and Trim Code. (2) Determine Group Number of part. (3) Locate appropriate Trim Code (listing of Trim Codes precedes each Body Type. (4) Match Model and Body Type with Trim Code to select part number.

For example, should a R.H. Front Door Trim Panel (Group 23942-3) be required for a Mustang Two Door Hardtop, Trim Code 4A (1) Refer to Group 23942-3. (2) Read down to locate F(65C). (3) Read trim codes (listed numerically) to find Trim Code 4A. (4) Part number shown is C7ZZ 6523942 and suffix listed is A2A.

3 DIGIT TRIM CODES

Parts for 3 digit trim codes ending with an alphabet (e.g. 15A) are listed with parts cataloged by trim code.

Parts for 3 digit trim codes ending with a numeral (e.g. 151) are not cataloged. Refer to the listing of trim codes to determine which parts are available through service. For parts which are not available for service contact your Service Representative, who will process in accordance with General ICC bulletin No. 7526.

Δ R.H. or L.H.

THE SOFT TRIM SECTION INCLUDES ONLY THOSE ITEMS WHICH WERE AVAILABLE FOR SERVICE AT THE TIME OF PRINTING. ITEMS NOT SHOWN IN THE CATALOG MUST BE IMPROVISED OR PROCURED LOCALLY.

INSTRUCTIONS

Determine correct Group Number by referring to an appropriate illustration in the Interior Trim Section of the Illustration Catalog, Ford AF 7635-B or to the Soft Trim Index of this catalog. Identify Model, Body Type and Trim Code by referring to 1968 Warranty Plate Codes as shown in the General Information Section.

The 1968 Soft Trim Section consists of: (1) Trim Scheme Codes and Swatches (Pages A1, A2, A3, B, etc.), (2) Listing of Soft Trim Parts for all Ford (A), Fairlane (B), Mustang (F), Thunderbird (S), Bronco (U) and Falcon (X) models. (Pages 1 to end.)

TRIM SCHEME CODES and SWATCHES

Consists of: (1) Listing of Trim Scheme Codes arranged in order of model, i.e. Ford, Fairlane, etc.
(2) Colored Swatches identified by a number beside the swatch.

How to use: (1) Identify Model, Body Type and Trim Code and apply this information to listing of Trim Scheme Codes. (2) Determine Swatch Identification Numbers and refer to Colored Swatches on page B, etc. (3) Locate appropriate swatches to verify the color and/or pattern of the principal materials used in the unit.

Colored Swatch pages are primarily for verification of color and/or pattern and do not indicate the type or weight of material.

For example, to determine which Swatches make up Trim Code 3B on Ford Four Door Sedan refer to page A1, A2, etc.

As shown on page A1 (Ford) Trim Code 3B indicates: (1) Body types (54C, 57F, 65A). (2) Trim scheme description (Dark blue crinkle vinyl and dark blue astoria pattern cloth). (3) Door and quarter material (swatch No. 16 & 101), bolster material (swatch No. 16), cushion and back material (swatch No. 114) and headlining material (swatch No. 15).

SOFT TRIM PARTS FOR ALL MODELS

Consists of: (1) Parts cataloged by trim code and color (e.g. Groups 02344-5, 24346-7, etc.).
(2) Parts cataloged by trim code only (e.g. Groups 23942-3, 62900, etc.).
(3) Miscellaneous parts (e.g. Groups 47042, 53700, etc.).

PARTS CATALOGED BY COLOR: (1) Identify Model, Body Type and Color of desired part. (2) Determine Group Number of part. (3) Locate appropriate Trim code and Color listed at top of page. Second character of trim code generally applicable to each color is also shown above the color as an additional aid. When color of part is in doubt refer to the list of Trim Codes and Colored Swatch pages for further identification. (4) Match color with Model and Body Type to select desired part number.

For example, should a Black Rear Floor Carpet (Group 13046) be desired for a Ford Four Door Hard top: (1) Refer to Group 13046: (2) Read list of Colors above title to find Black. (3) Read down to find A(54). (4) Part number shown is C7AZ 5413046 and suffix in "Black" column is A1A.

PARTS CATALOGED BY TRIM CODE: (1) Identify Model, Body Type and Trim Code. (2) Determine Group Number of part. (3) Locate appropriate Trim Code (listing of Trim Codes precedes each Body Type. (4) Match Model and Body Type with Trim Code to select part number.

For example, should a L.H. Front Door Trim Panel (Group 23942-3) be required for a Ford Four Door Sedan, Trim Code 5B: (1) Refer to Group 23942-3. (2) Read down to locate A(54A). (3) Read trim codes (listed numerically) to find Trim Code 5B. (4) Part number shown is C8AZ 5423943 and suffix listed is A5B.

3 DIGIT TRIM CODES

Parts for 3 digit trim codes ending with an alphabet (e.g. 15A) are listed with parts cataloged by trim code.

Parts for 3 digit trim codes ending with a numeral (e.g. 151) are not cataloged. Refer to the listing of trim codes to determine which parts are available through service. For parts which are not available for service contact your Service Representative, who will process in accordance with General ICC bulletin No. 7526.

Δ R.H. or L.H.

THE SOFT TRIM SECTION INCLUDES ONLY THOSE ITEMS WHICH WERE AVAILABLE FOR SERVICE AT THE TIME OF PRINTING. ITEMS NOT SHOWN IN THIS CATALOG MUST BE IMPROVISED OR PROCURED LOCALLY.

INSTRUCTIONS

Determine correct Group Number by referring to an appropriate illustration in the Interior Trim Section of the Illustration Catalog, Ford AF 7635-B or to the Soft Trim Index of this catalog. Identify Model, Body Type and Trim Code by referring to 1969 Warranty Plate Codes as shown in the General Information Section.

The 1969 Soft Trim Section consists of: (1) Trim Scheme Codes and Swatches (Pages A1, A2, A3, B, etc.). (2) Listing of Soft Trim Parts for all Ford (A), Fairlane/Torino (B), Mustang (F), Thunderbird (S), Bronco (U), and Falcon (X) models. (Pages 1 to end).

TRIM SCHEME CODES and SWATCHES

Consists of: (1) Listing of Trim Scheme Codes arranged in order of model, i.e. Ford, Fairlane, etc.
(2) Colored Swatches identified by a number beside the swatch.

How to use: (1) Identify Model, Body Type and Trim Code and apply this information to listing of Trim Scheme Codes. (2) Determine Swatch Identification Numbers and refer to Colored Swatches on page B, etc. (3) Locate appropriate swatches to verify the color and/or pattern of the principle materials used in the unit.

Colored Swatch pages are primarily for verification of color and/or pattern and do not indicate the type or weight of material.

For example, to determine which Swatches make up Trim Code 3B on Ford Four Door Sedan refer to page A1, A2, etc.

As shown on page A1 (Ford) Trim Code 3B indicates: (1) Body types (54B, 62B).
(2) Trim scheme description (Light blue corinthian vinyl and light blue decka pattern cloth).
(3) Door and Quarter material (swatch No. 26), bolster material (swatch No. 26), cushion and back material (swatch No. 113) and headlining material (swatch No. 19).

SOFT TRIM PARTS FOR ALL MODELS

Consists of: (1) Parts cataloged by trim code and color (e.g. Groups 02344-5, 24346-7, etc.).
(2) Parts cataloged by trim code only (e.g. Groups 23942-3, 62900, etc.).
(3) Miscellaneous parts (e.g. Groups 47042, 53700, etc.).

PARTS CATALOGED BY COLOR: (1) Identify Model, Body Type and Color of desired part. (2) Determine Group Number of part. (3) Locate appropriate Trim code and Color listed at top of page. Second character of trim code generally applicable to each color is also shown above the color as an additional aid. When color of part is in doubt refer to the list of Trim Codes and Colored Swatch pages for further identification. (4) Match Color with Model and Body Type to select desired part number.

For example, should a Blue Rear Floor Carpet (Group 13046) be desired for a Mustang Two Door Hard Top: (1) Refer to Group 13046. (2) Read list of Colors above title to find Blue. (3) Read down to find F(65). (4) Part number shown is C9ZZ 6513046 and suffix in "Blue" column is A1B.

PARTS CATALOGED BY TRIM CODE: (1) Identify Model, Body Type and Trim Code. (2) Determine Group Number of part. (3) Locate appropriate Trim Code (listing of Trim Codes precedes each Body Type). (4) Match Model and Body Type with Trim Code to select part number.

For example, should a R.H. Front Door Trim Panel (Group 23942-3) be required for a Fairlane Four Door Sedan, Trim Code 3Y: (1) Refer to Group 23942-3. (2) Read down to locate B(54B). (3) Read trim codes to find Trim Code 3Y. (4) Part number shown is C9OZ 5423942 and suffix listed is A3Y.

3 DIGIT TRIM CODES

Parts for 3 digit trim codes ending with an alphabet (e.g. 1BA) are listed with parts cataloged by trim code. Parts for 3 digit trim codes ending with a numeral (e.g. 1B1) are not cataloged. Refer to the listing of trim codes to determine which parts are available through service. For parts which are not available for service contact your Service Representative, who will process in accordance with General ICC bulletin No. 7526.

THE SOFT TRIM SECTION INCLUDES ONLY THOSE ITEMS WHICH WERE AVAILABLE FOR SERVICE AT THE TIME OF PRINTING. ITEMS NOT SHOWN IN THE CATALOG MUST BE IMPROVISED OR PROCURED LOCALLY.

INSTRUCTIONS

Determine correct Group Number by referring to an appropriate illustration in the Interior Trim Section of the Illustration Catalog, Ford AF 7635-B or to the Soft Trim Index of this catalog. Identify Model, Body Type and Trim Code by referring to 1970 Certification Label Codes as shown in the General Information Section.

The 1970 Soft Trim Section consists of: (1) Trim Scheme Codes and Swatches (Pages A1, A2, A3, B, etc.). (2) Listing of Soft Trim Parts for all Ford (A), Fairlane/Torino (B), Mustang (F), Maverick (P), Thunderbird (S), Bronco (U), and Falcon (X) models. (Pages 1 to end).

TRIM SCHEME CODES and SWATCHES

Consists of: (1) Listing of Trim Scheme Codes arranged in order of model, i.e. Ford, Fairlane/Torino, etc.
(2) Colored Swatches identified by a number beside the swatch.

How to use: (1) Identify Model, Body Type and Trim Code and apply this information to listing of Trim Scheme Codes. (2) Determine Swatch Identification Numbers and refer to Colored Swatches on page B, etc. (3) Locate appropriate swatches to verify the color and/or pattern of the principle materials used in the unit.

Colored Swatch pages are primarily for verification of color and/or pattern and do not indicate the type or weight of material.

For example, to determine which Swatches make up Trim Code 3B on Ford Four Door refer to page A1, A2, etc.

As shown on page A1 (Ford) Trim Code 3B indicates: (1) Body types (54B, 62B).
(2) Trim scheme description (Medium blue corinthian vinyl and medium blue oneida pattern cloth).
(3) Door and Quarter material (swatch No. 27), bolster material (swatch No. 27), cushion and back material (swatch No. 136) and headlining material (swatch No. 19).

SOFT TRIM PARTS FOR ALL MODELS

Consists of: (1) Parts cataloged by trim code and color (e.g. Groups 02344-5, 24346-7, etc.).
(2) Parts cataloged by trim code only (e.g. Groups 23942-3, 62900, etc.).
(3) Miscellaneous parts (e.g. Groups 47042, 53700, etc.).

PARTS CATALOGED BY COLOR: (1) Identify Model, Body Type and Color of desired part. (2) Determine Group Number of part. (3) Locate appropriate Trim code and Color listed at top of page. Second character of trim code generally applicable to each color is also shown above the color as an additional aid. When color of part is in doubt refer to the list of Trim Codes and Colored Swatch pages for further identification. (4) Match Color with Model and Body Type to select desired part number.

For example, should a Blue Rear Floor Carpet (Group 13046) be desired for a Mustang Two Door Hard top: (1) Refer to Group 13046. (2) Read list of Colors above title to find Blue. (3) Read down to find F(65). (4) Part number shown is D0ZZ 6513046 and suffix in "Blue" column is A.

PARTS CATALOGED BY TRIM CODE: (1) Identify Model, Body Type and Trim Code. (2) Determine Group Number of part. (3) Locate appropriate Trim Code (listing of Trim Codes precedes each Body Type. (4) Match Model and Body Type with Trim Code to select part number.

For example, should a R.H. Front Door Trim Panel (Group 23942-3) be required for a Fairlane/Torino Four Door Sedan, Trim Code 3B: (1) Refer to Group 23942-3. (2) Read down to locate B(54B). (3) Read trim codes to find Trim Code 3B. (4) Part number shown is D0OZ 5423942 and suffix listed is A2B.

3 DIGIT TRIM CODES

Parts for 3 digit trim codes ending with an alphabet (e.g. 1BA) are listed with parts cataloged by trim code.

Parts for 3 digit trim codes ending with a numeral (e.g. 1B1) are not cataloged. Refer to the listing of trim codes to determine which parts are available through service. For parts which are not available for service contact your Service Representative, who will process in accordance with General ICC bulletin No. 7526.

INSTRUCTIONS

The Soft Trim Section includes only those items which were available for service at the time of printing. Items not shown in the catalog must be improvised or procured locally.

Determine correct Group Number by referring to an appropriate illustration in the Interior Trim Section of the Illustration Catalog, Ford FP 7635-B or to the Soft Trim Index of this catalog. Identify Model, Body Type and Trim Code by referring to 1971 Certification Label Codes as shown in the General Information Section.

The 1971 Soft Trim Section consists of. (1) Trim Scheme Codes and Swatches (Pages A1, A2, A3, B, etc.). (2) Listing of Soft Trim Parts for all Ford (A), Torino (B), Mustang (F), Pinto (L), Maverick (P), Thunderbird (S) and Bronco (U) models. (Pages 1 to end)

TRIM SCHEME CODES and SWATCHES

Consists of: (1) Listing of Trim Scheme Codes arranged in order of model, i.e. Ford, Torino etc.
(2) Colored Swatches identified by a number beside the swatch.

How to use: (1) Identify Model, Body Type and Trim Code and apply this information to listing of Trim Scheme Codes. (2) Determine Swatch Identification Numbers and refer to Colored Swatches on page B, etc. (3) Locate appropriate swatches to verify the color and/or pattern of the principle materials used in the unit.

Colored Swatch pages are primarily for verification of color and/or pattern and do not indicate the type or weight of material.

For example, to determine which Swatches make up Trim Code 3B on Ford Four Door Sedan refer to page A2.

As shown on page A2 (Ford) Trim Code 3B indicates (1) Body types (54D)
(2) Trim scheme description (Medium blue vinyl and medium blue cloth).
(3) Door and Quarter material (swatch No. 12), bolster material (swatch No. 12), cushion and back material (swatch No. 12 & 170) and headlining material (swatch No. 98).

SOFT TRIM PARTS FOR ALL MODELS

Consists of: (1) Parts cataloged by trim code and color (e.g. Groups 02344-5, 24346-7, etc.).
(2) Parts cataloged by trim code only (e.g. Groups 23942-3, 62900, etc.).
(3) Miscellaneous parts (e.g. Groups 47042, 53700, etc.).

PARTS CATALOGED BY COLOR: (1) Identify Model, Body Type and Color of desired part. (2) Determine Group Number of part. (3) Locate appropriate Trim code and Color listed at top of page. Second character of trim code generally applicable to each color is also shown above the color as an additional aid. When color of part is in doubt refer to the list of Trim Codes and Colored Swatch pages for further identification. (4) Match Color with Model and Body Type to select desired part number.

For example, should a Blue Rear Floor Carpet (Group 13046) be desired for a Mustang Two Door Hard Top: (1) Refer to Group 13046. (2) Read list of colors above title to find Blue. (3) Read down to find F(65). (4) Part number shown is D1ZZ 6513046 and suffix in "Blue" column is B.

PARTS CATALOGED BY TRIM CODE: (1) Identify Model, Body Type and Trim Code. (2) Determine Group Number of part. (3) Locate appropriate Trim Code (listing of Trim Codes precedes each Body Type. (4) Match Model and Body Type with Trim Code to select part number.

For example, should a R.H. Front Door Trim Panel (Group 23942-3) be required for a Torino Four Door Sedan, Trim Code 2B (1) Refer to Group 23942-3. (2) Read down to locate B(54A). (3) Read trim codes to find Trim Code 2B (4) Part number shown is D0OZ 5423942 and suffix listed is A2B.

3 DIGIT TRIM CODES

Parts for 3 digit trim codes ending with an alphabet (e.g. 1BA) are listed with parts cataloged by trim code. Parts for 3 digit trim codes ending with a numeral (e.g. 1B1) are not cataloged. Refer to the listing of trim codes to determine which parts are available through service. For parts which are not available for service contact your Service Representative, who will process in accordance with General ICC bulletin No. 7526.

INSTRUCTIONS

Determine correct Group Number by referring to an appropriate illustration in the Interior Trim Section of the Illustration Catalog, Ford FP 7635-B or to the Soft Trim Index of this catalog. Identify Model, Body Type and Trim Code by referring to 1972 Certification Label Codes as shown in the General Information Section.

The 1972 Soft Trim Section consists of: (1) Trim Scheme Codes and Swatches (Pages A1, A2, A3, B, etc.). (2) Listing of Soft Trim Parts for all Ford (A), Torino (B), Mustang (F), Pinto (L), Maverick (P), Thunderbird (S) and Bronco (U) models. (Pages 1 to end)

TRIM SCHEME CODES and SWATCHES

Consists of: (1) Listing of Trim Scheme Codes arranged in order of model, i.e. Ford, Torino etc.
(2) Colored Swatches identified by a number beside the swatch.

How to use: (1) Identify Model, Body Type and Trim Code and apply this information to listing of Trim Scheme Codes. (2) Determine Swatch Identification Numbers and refer to Colored Swatches on Page B, etc. (3) Locate appropriate swatches to verify the color and/or pattern of the principle materials used in the unit.

Colored Swatch pages are primarily for verification of color and/or pattern and do not indicate the type or weight of material.

For example, to determine which Swatches make up Trim Code AB on Ford Four Door Sedan refer to page A2, A3 etc.

As shown on page A2 (Ford) Trim Code AB indicates (1) Body types (54B)
(2) Trim scheme description (Medium blue vinyl and medium blue cloth).
(3) Door and Quarter material (swatch No. 1), bolster material (swatch No. 1), cushion and back material (swatch No. 8, 38 and 185) and headlining material (swatch No. 101).

SOFT TRIM PARTS FOR ALL MODELS

Consists of: (1) Parts cataloged by trim code and color (e.g. Groups 02344-5, 24346-7, etc.).
(2) Parts cataloged by trim code only (e.g. Groups 23942-3, 62900, etc.).
(3) Miscellaneous parts (e.g. Groups 47042, 53700, etc.).

PARTS CATALOGED BY COLOR. (1) Identify Model, Body Type and Color of desired part. (2) Determine Group Number of part. (3) Locate appropriate Trim code and Color listed at top of page. Second character of trim code generally applicable to each color is also shown above the color as an additional aid. When color of part is in doubt refer to the list of Trim Codes and Colored Swatch pages for further identification. (4) Match Color with Model and Body Type to select desired part number.

For example, should a Blue Rear Floor Carpet (Group 13046) be desired for a Mustang Two Door Hard Top. (1) Refer to Group 13046 (2) Read list of colors above title to find Blue. (3) Read down to find F(65). (4) Part number shown is D2ZZ 6513046 and suffix in "Blue" column is B.

PARTS CATALOGED BY TRIM CODE. (1) Identify Model, Body Type and Trim Code. (2) Determine Group Number of part. (3) Locate appropriate Trim Code (listing of Trim Codes precedes each Body Type. (4) Match Model and Body Type with Trim Code to select part number.

For example, should a R.H. Front Door Trim Panel (Group 23942-3) be required for a Torino Four Door Sedan, Trim Code AB (1) Refer to Group 23942-3. (2) Read down to locate B(53B). (3) Read trim codes to find Trim Code AB (4) Part number shown is D2OZ 5323942 and suffix listed is AAB.

3 DIGIT TRIM CODES

Parts for 3 digit trim codes ending with an alphabet (e.g. 1BA) are listed with parts cataloged by trim code. Parts for 3 digit trim codes ending with a numeral (e.g. 1B1) are not cataloged. Refer to the listing of trim codes to determine which parts are available through service. For parts which are not available for service contact your Service Representative, who will process in accordance with General ICC bulletin No. 7526.
