RADIATOR CROSS REFERENCE GUIDE

A To use this guide:

1. Find the identification marking on radiator top tank or the side mounting bracket.
2. Locate this number in column marked "Identification Marking".
3. Read across to next column to right to find the service number.

B If the radiator identification is not known, the pages following this guide have radiator part numbers arranged in the following order:

1. Car line
2. Model years
3. Number of cylinders
4. Cubic inch displacement

8260 HOSE - RADIATOR

Motorcraft numbers as they appear in the model application chart which follows can be used to determine diameter and length of the hose as explained below.

FLEXIBLE RADIATOR HOSE

FIRST LETTER PREFIX: K - Designates the hose line in all cases.

SECOND LETTER PREFIX:
A - Designates 1 1/4" inside diameter at end opening.
B - Designates 1 1/2" inside diameter at end opening.
C - Designates 1 3/4" inside diameter at end opening.
D - Designates 2" inside diameter at end opening.

NUMBERS: (There must always be a three digit numeral.) First two digits designate the amount of full inches of hose length. Third digit designates the remaining fraction of an inch (expressed in eights of an inch) of hose length.

EXAMPLE: KAB-194 - Flexible radiator hose having a 1 1/4" inside diameter at one end and a 1 1/2" inside diameter at the other end opening and a hose length of 19 1/2".
KC-092 - Flexible radiator hose having a 1 3/4" end opening inside diameter at both ends and a hose length of 9 1/4".

MOLDED RADIATOR HOSE

FIRST LETTER PREFIX: K - Designates the hose line in all cases.

SECOND and THIRD LETTER PREFIXES:
M - Designates the molded curved type hose.
S - Designates the molded straight type hose.

NUMBERS: Sequential numbering system beginning with the numeral "1".

EXAMPLE: KM-174 - Motorcraft molded curved radiator hose.
KS-7 - Motorcraft molded straight radiator hose.

DRIVE BELTS

HOW TO IDENTIFY FAN BELTS

1. By size and length-the Motorcraft Part Number allows you to determine belt size as explained below:

FIRST LETTER PREFIX: J - Designates the V-belt line in all cases

SECOND LETTER PREFIX:

A - Designates	13/32" top width of belt
B -	15/32"
C -	1/2"
D -	5/8"
E -	11/16"
F -	3/4"
G -	7/8"
H -	1/4"
M -	19/32"
P -	23/32"
R -	17/32"

NUMBERS: (There must always be a three digit numeral) First two digits designate the amount of whole inches of outside circumference of the belt.

Third digit designates the remaining fraction of an inch (expressed in eights of an inch) of outside circumference of the belt.

LETTERS SUFFIXES: Suffixes will designate special types of V-belts: C - for cog belts, L - for laminated belts, R - for racing belts

EXAMPLES: JA-451-R - Racing V-belt with 13/32" top width and 45 1/8" outside circumference.

JB-493-L - Laminated belt with 15/32" top width and 49 3/8" outside circumference.

JF-535-C - Cog belt with 3/4" top width and 53 5/8" outside circumference.

2. By identification marking - refer to chart beginning on page 2 of this section.

3. By year, model and application - refer to Listing beginning on page 13 of this section.

BELT IDENTIFICATION MARKING TO SERVICE PART NUMBER GUIDE

The purpose of this guide is to help find service part numbers for fan belts. Belts are identified with a marking on the outer (wide) surface of the belt. Although the identification marking and service part number may be the same in some instances, this is not generally true. Find the belt marking in the "Belt Identification Marking" column, then order the number listed in the "Service Part Number" column. Following the guide chart, belt part numbers are listed by model year to help find service part numbers when the belt marking is not known. The names Ford, Motorcraft, Bosch, Delco and Leece-Neville identify the type of generator or alternator with which a particular belt is used.

Accelerator assy.	9725
Accelerator control kit	9B843
Actuator (speed control release switch)	9C798
Actuator assy. (speed control)	9A825
Actuator cable & dial assy. (speed control)	9A825
Adapter (carb. air cleaner to intake tube)	9D608
Adapter (carb. choke control tube)	9C786
Adapter (carb. fuel inlet)	9A520
Adapter (exhaust air supply vacuum pipe to by-pass valve)	9K452
Adapter (fuel vapor purge tube to air cleaner)	9D692
Adapter (intake manifold to deceleration valve)	9K495
Adapter (manifold inlet vacuum pipe to distributor)	9K442
Adapter (thermostatic choke control inlet tube)	9C786
Adapter assy. (fuel tank vent expansion tank)	9A210
Adapter assy. (oil pressure hose)	9279
Adapter kit (carb.)	9G545
Adapter kit (exhaust air supply)	9C432
Adapter kit (P/S)	9103
Adjuster (speed control connector)	9C876
Air valve kit (carb. spring & cam)	9S512
Amplifier assy. (speed control)	9D843
Anti-rattler (fuel tank to bracket)	9A058
Arm (exhaust air supply pump belt adjustment)	9B452
Arm assy. (carb. metering rod)	9D819
Arm assy. (fuel pump rocker)	9376
Arm assy. (speed control rod to throttle pivot)	9C812
B	
Baffle (carb. air valve)	9S570
Baffle (carb. automatic choke plate)	9A539
Baffle (carb. equalizer passage)	9A517
Baffle (carb. float bowl)	9A517
Baffle (carb. metering body vent)	9553
Ball (carb. accelerator pump check)	9576
Ball (carb. pump discharge check)	9576
Ball (carb. secondary throttle check)	9576
Ball (carb. throttle lever)	9681
Base plate (carb. air cleaner)	9D600
Bearing (speed control servo connector to bellcrank)	9D764
Bearing assy. (exhaust air supply pump rear)	9B477
Bellcrank (speed control)	9B713
Bellcrank assy. (carb. accelerator)	9732
Bellcrank assy. (throttle control)	9A774
Bezel (fuel gauge)	9A283
Bezel (selector switch)	9A389
Bezel (speed control switch)	9D782

PART NAME	GROUP NUMBER

Body (carb. power valve)	9G552
Body assy. (carb. main)	9512
Body assy. (vacuum pump)	9354
Body & plugs assy. (carb. main metering)	9A511, 9A513
Body & plugs assy. (fuel pump upper)	9343
Body & shaft assy. (carb. throttle)	9518
Bolt (fuel tank strap)	9A010
Boot (accelerator shaft)	9793
Bowl (fuel pump filter)	9355
Bowl & plugs assy. (carb. float)	9A507-8
Brace (carb. air cleaner)	9663
Brace (speed control pulley)	9C875
Bracket (accelerator bellcrank stabilizer)	9D703
Bracket (accelerator bellcrank stabilizer rear)	9D709
Bracket (accelerator pedal lever)	9C803
Bracket (accelerator shaft)	9728
Bracket (accelerator shaft to dash)	9A762
Bracket (accelerator to retracting spring)	9741
Bracket (anti-backfire valve)	9B290
Bracket (aux. fuel tank locating rear)	9K018
Bracket (carb. air cleaner support)	9A627
Bracket (carb. choke control mounting)	9A700
Bracket (carb. dashpot mounting)	9B550
Bracket (carb. float bowl vent)	9E520
Bracket (carb. float pendulum)	9H546
Bracket (carb. manual choke mounting)	A838
Bracket (carb. throttle emission control solenoid)	586
Bracket (exhaust air supply pump air cleaner)	3453
Bracket (exhaust air supply pump mounting)	9B450
Bracket (exhaust air supply pump rear)	9B463
Bracket (exhaust air supply tube)	9B481
Bracket (fuel filter)	9180
Bracket (fuel gauge mounting)	9D336
Bracket (fuel line support)	9D319
Bracket (fuel tank guard lower)	9A154
Bracket (fuel tank selector valve mounting)	9A061
Bracket (fuel tank support)	9046, 9068, 9A004
Bracket (fuel tank vent expansion tank front or rear)	9A188, 9A194, 9A225
Bracket (fuel tank vent tube shield lower)	9B027
Bracket (fuel tank vent tube shield upper)	9B026
Bracket (oil pressure sender)	9F313
Bracket (speed control actuator cable)	9B736
Bracket (speed control amplifier mounting)	9D845
Bracket (speed control inhibitor switch)	9C873

Housing (carb. thermostatic choke)	9848
Housing (fuel tank to expansion tank connector)	9A205
Housing assy. (carb. choke)	9A575
Housing assy. (carb. secondary throttle diaphragm)	9501
Housing assy. (choke thermostat)	9848
Housing kit (carb. thermostatic choke)	9848
Housing & plugs (carb. choke)	9849
Hub (carb. fast idle cam)	9D558
I	
Idler assy. (w/bracket & pulley supercharger)	9104
Insert (carb. venturi)	9E514
Insert (thermostatic choke control air intake)	9A714
Insulator (accelerator shaft)	9B720
Insulator (carb. trans. vacuum tube)	9S547
Insulator (fuel level indicator)	9E308
Insulator (fuel tank to floor pan)	9A068
Insulator (thermostatic choke control outlet tube)	9865
Intake kit (ram air)	9C654
J	
Jet (carb. main metering)	9533
Jet assy. (carb. idle)	9542
K	
KIT - refer to appropriate noun name For example Housing kit (carb. thermostatic choke)	9848
Knob assy. (carb. choke control)	9B739
Knob assy. (speed control actuator)	9A832
L	
Lens (fuel level gauge)	9B315
Lever (accelerator shaft)	9761
Lever (carb. accelerator pump)	9D591, 9919
Lever (carb. accelerator pump operating)	9A506, 9529
Lever (carb. accelerator pump overtravel)	9919
Lever (carb. air valve dampener)	9H582
Lever (carb. air valve lockout)	9583
Lever (carb. choke bellcrank adjusting)	9A535
Lever (carb. choke control)	9D541
Lever (carb. choke control diaphragm)	9J553
Lever (carb. choke shaft)	9A514, 9551
Lever (carb. choke thermostat)	9A754
Lever (carb. dechoke)	9583
Lever (carb. dechoke override)	9J598
L. cont'd.	
Lever (carb. fast idle adjusting)	9538
Lever (carb. fast idle cam)	9F577
Lever (carb. float bowl vent actuating)	9D585
Lever (carb. mechanical vent valve adjusting)	9H585
Lever (carb. secondary throttle diaphragm)	9583
Lever (carb. secondary throttle stop)	9583
Lever (carb. throttle)	9C504, 9583
Lever (carb. throttle shaft aux.)	9A537
Lever (fuel pump rocker arm return spring)	9B354
Lever assy. (carb. fast idle pickup)	9A535
Lever assy. (carb. throttle control)	9A514
Lever & bracket assy. (carb. throttle control)	9724
Lever & shaft assy. (carb. secondary throttle plate)	9A592
Lever & shaft assy. (carb. throttle)	9581
Lever & shaft assy. kit (carb. throttle)	9581
Lever & swivel assy. (carb. choke)	9A514
Link (carb. accelerator pump)	9529
Link (carb. air valve dampener)	9H583
Link (carb. choke diaphragm)	9J552
Link (carb. choke thermostat)	9834
Link (carb. dashpot)	9D593
Link (carb. vacuum break)	9S515
Link (fuel pump rocker arm)	9381
Link (speed control bellcrank carb. rod adjusting)	9D768
Lock (exhaust manifold to cylinder head bolt tab)	9A447
M	
Manifold (exhaust)	9426, 9428, 9430-1
Manifold (intake)	9424-5
Manifold assy. (exhaust air supply)	9B445
Manifold assy. (vacuum outlet)	9C490
Manual choke kit	9850
Member (fuel tank support)	9064
Metering rod holder kit (carb. secondary)	9S513
N	
Needle (carb. idle adjusting)	9541
Nozzle assy. (carb. pump discharge)	9577
Nut (accelerator shaft to bellcrank rod)	9A857
Nut (carb. choke plate adjusting)	9D564
Nut (carb. power valve adjusting)	9B503
Nut (carb. throttle lever & choke shaft)	9B527
Nut (carb. throttle lever retaining)	9618
Nut (speed control actuator bezel)	9C752
Nut & ferrule (exhaust air supply)	9B471

HOW TO IDENTIFY CARBURETORS and RELATED PARTS

To facilitate the identification of service kits and parts for a specific carburetor, parts lists or bills of material are provided in Sections 95.3 and up, of this catalog for each carburetor assembly. It is necessary first to identify the carburetor assembly per the instructions that follow.

Carburetors can be identified by the stamping number shown on the carburetor or on a metal tag attached to the carburetor. The location of this stamping number differs for the various carburetors - see the Carburetor Identification Chart beginning on Page 2 of this section.

Each carburetor for 1965 and subsequent models has an identification tag. An illustration and explanation of the carburetor identification tags are shown on Page 2 of this section.

If either the tag or stamping identification number is known, the related carburetor and carburetor parts list numbers can be determined from the Guide beginning on Page 2 of this section.

Carburetors and their parts lists can also be identified by Engine, Model Year, etc. in the Carburetor Application Chart beginning on Page 26 of this section. Also shown in the Carburetor Application Chart is the page number for a typical parts illustration for each carburetor assembly.

Carburetor illustrations are shown in Illustration Section 95 of Form FP 7635-B.

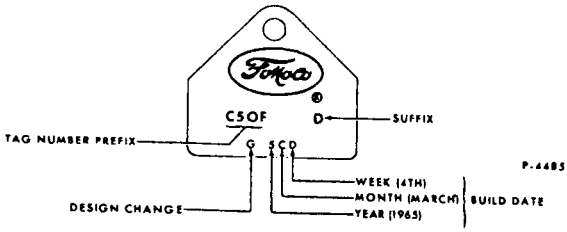
Parts lists are grouped by type and engine and each group of related carburetor parts lists is shown in a separate section. The section number can readily be identified with the carburetor parts list numbers as shown in the following example:

Carburetor Type	Engine No. of Cyls.	Engine C.I.D.	Parts List Number	Catalog Section No.
Ford 1/B	6	170	3A,3B,3C, etc.	95.3
Ford 2/B	8	289	11A,11B,11C, etc.	95.11
Ford 4/B	8	352	15A,15B,15C	95.15
Ford 4/B	8	390	17A,17B,17C,etc.	95.17

For ready reference, kit part numbers are shown with the carburetor identification guide and at the beginning of each parts list section. A listing of components for each kit is shown in Section 95A. Refer to the Index at the beginning of Section 95A for page number of service kit.

Carburetor attaching parts are shown at the beginning of their respective parts lists following the part numbers for the kits.

To identify the parts or kits for a specific carburetor it is only necessary to refer to the related parts list and parts illustration.



An Alphabetical Index showing a cross-reference between noun description and Basic Group number is located at the beginning of this catalog.

IMPORTANT: Always furnish appropriate Patent or Warranty Plate information and DSO number if applicable when ordering parts not listed in the Catalog.

NOTE 1K -Stamping identification is located on edge of carburetor mounting flange

NOTE 2 - The stamped identification on carburetor mounting flange is main body identification only. Carburetor identification appears on identification tag.

NOTE 3 -Service pkg. includes mounting gasket and also (1) each C1AZ 9B549-A dashpot, B8AZ 9B550-A bracket, 33923-S8 nut and 43252-S8 screw & washer for use with automatic transmission.

NOTE 5 -Service package includes (1) C2AZ 9C639-A adaptor cap.

NOTE 8 -Service pkg. includes (1) C4AZ 9C639-A adaptor cap, (1) 378761-S screw.

NOTE 13 -Service pkg. includes mounting gasket.

NOTE 17 -Service pkg. includes (1) C2OZ 9447-C gasket, (?) C7AZ 9J500-B limiter, (1) C4AZ 9C639-A cap, (1) C5ZZ 9564-B gasket, (1) 372700-S adaptor, (1) 375016-S2 screw

NOTE 26 -Service pkg. includes (1) each C4AZ 9C639-A adaptor cap, C7AF 9996-B tube, 351112-S screw, 372700-S adaptor, 378761-S screw.

NOTE 1K -Stamping identification is located on edge of carburetor mounting flange.

♦ Canada only

NOTE 13 -Service pkg. includes mounting gasket.

NOTE 15 - Service pkg. includes carburetor to manifold spacer.

NOTE 22 -Service pkg. includes (1) C5AZ 9447-A gasket, (1) C4AZ 9C639-A cap, (2) C7AZ 9J500-B limiter, (1) C6PF 12226-A hose, (1) 44718-S2 washer, (1) 375016-S2 screw.

NOTE 30 -Service pkg. includes (1) C2OA 9324-C hose-fuel, (1) D0AF 9447-A gasket, (1) D0AF 9C704-A hose-clean air supply, (1) D0AF 12226-A hose-carb. to distributor, (1) 370970-S8 stud, (1)371002-S8 stud, (1) 372166-S vacuum fitting, (1) 380613-S cap, (1) 380614-S cap, (1) 380882-S32 clamp

NOTE 56 -Service pkg. includes (1) D1ZZ 9447-A gasket, (2) C7AZ 9J500-B limiter, (1) D1OZ 9A589-A spacer, (1) 375016-S2 screw

NOTE 61 -Service pkg. includes (1) C8SZ 9447-A gasket, (2) C7AZ 9J500-B limiter, and (1) D3PF 9E815-AA sleeve.

NOTICE: When the parts list suffix is shown in the quantity required column, the quantity is one (1).

Instructions for identifying Carburetor Assemblies and their related Parts List Numbers are shown at the beginning of Section 95.

For ready reference, kit part numbers are shown at the beginning of each parts list in Section 95.3 and up.

Included in Section 95A is a listing of components for each kit.

Always refer to the following Index for page numbers on which components are listed.

1-C7DZ	9561-A	Gasket (carb. float bowl)
1-D0PZ	9564-B	Valve and seat assy. (carb. fuel inlet)
1-C7DZ	9825-A	Clip (carb. rod end clevis)
1-B7A	9871-C	Gasket (carb. choke housing)

CARBURETOR PARTS LISTS - continued

★D0DZ 9590-B (CR-384) (Service details)		Consists of
1-C7DZ	9447-A	Gasket (carb. to intake manifold)
1-C7AZ	9J500-D	Limiter(carb. idle adjusting)
1-D0DZ	9516-A	Gasket (carb. throttle body)
1-C7DZ	9A516-A	Valve (carb. pump discharge)
1-D0DZ	9A521-B	Restrictor (carburetor jet)
1-D0DZ	9A526-B	Rod (carburetor metering)
1-D0DZ	9533-A	Jet (carburetor main metering)
1-C7DZ	9B559-A	Diaphragm assy. (accel. pump)
1-C7DZ	9561-A	Gasket (carburetor float bowl)
1-D0DZ	9564-A	Valve & seat assy. (fuel inlet)
1-C7DZ	9825-A	Clip (carburetor rod end clevis)
1-B8A	9871-B	Gasket (carburetor choke housing)

★D0DZ 9590-C (CR-385) (Service details)		Consists of
1-C8AZ	9447-A	Gasket (carb.to intake manifold)
1-C7AZ	9J500-B	Limiter (carb.idle adjusting)
1-D0DZ	9516-A	Gasket (carb.throttle body)
1-C7DZ	9A516-A	Valve (carb.pump discharge)
1-D0DZ	9A526-A	Rod (carb.metering)
1-D0DZ	9A521-A	Restrictor (carb.jet)
1-C8AZ	9533-B	Jet (carb.main metering)
1-C7DZ	9B559-A	Diaphragm assy.(carb. accelerator pump)
1-C7DZ	9561-A	Gasket (carb.float bowl)
1-D0DZ	9564-A	Valve and seat assy.(carb.fuel inlet)
1-C7DZ	9825-A	Clip (carb.rod end clevis)
1-B7A	9871-C	Gasket (carb.choke housing)

D12X 9590-AA	Consists of
1-	Filter (fuel)
1-	Needle & seat assy.
1-	Float
1-	Diaphragm (accelerator pump)
1-	Gasket (lower bowl)
1-	Gasket (upper bowl)
1-	"O" ring (needle & seat)
1-	Air inlet (main jet)
1-	Gasket (fuel inlet banjo)
3-	"O" ring (idle emul. tube)
2-	Gasket (accel. pump jet retainer-inner)
2-	Gasket (accel. pump jet retainer-outer)
1-	Fitting (fuel banjo)

10002 GENERATOR ASSY.

HOW TO FIND GENERATORS and COMPONENTS

By IDENTIFICATION:

1. Refer to Identification Chart below.
2. Check marking (on generator housing) against Identification numbers to determine part numbers of service generator and pulley.

By MODEL APPLICATION:

1. Refer to Model Application Chart below
2. Refer to appropriate Year, Model and Engine.
3. Select and refer to Parts List A or B on Page 4 of this Section.
4. If basic number is not known refer to Illustration Section 100, Page 1 of the Ford Car Master Illustration Catalog (Form FP 7635-B) or to the alphabetical index at beginning of this section.
5. Select part number shown for affected Parts List. If more than one part number is shown refer to Description and Restrictions for clarification.
6. Quantity of parts shown in columns A or B.
7. Parts are listed numerically.

Identification Example: C3DF 10000-A is listed in Parts List 100, column B.

Model Application Example: 1965 Mustang (6 cyl.) uses 25 amp. generator (C1DZ 10002-A). Internal parts for this generator are listed in Parts List 100, column B.

FINAL ISSUE

10039 GENERATOR MOUNTING BRACKETS

Generator mounting parts are listed in chart form following the illustration below. Refer to the illustration to determine the name of the part required. Refer to the chart to select the appropriate part number. The chart is listed by year, model, engine and generator make and amperage.

Attaching parts such as bolts, nuts, etc. are listed by code number. A listing of the code numbers and their corresponding part numbers and descriptions appears at the end of the chart.

10300 ALTERNATOR

HOW TO FIND ALTERNATORS and COMPONENTS

By IDENTIFICATION:

1. Refer to Identification Chart below.
2. Check marking (on alternator housing) against Identification numbers to determine part numbers of service alternator, pulley, fan & spacer.

By MODEL APPLICATION:

1. Refer to Model Application Chart beginning on page 34
2. Refer to appropriate Year, Model and Engine.

3. Select and refer to appropriate Parts List Section and Number.
4. If basic number is not known refer to Illustration Page shown in the Ford Car Master Illustration Catalog (Form FP 7635-B) or to the index at the beginning of Section 100.
5. Select part number shown for affected Parts List. If more than one part number is shown refer to Description and Restrictions for clarification.
6. Quantity of parts shown in columns A, B or C etc.
7. Parts are listed numerically.

IDENTIFICATION EXAMPLE: C6DF 10300-A is listed in Parts List Section 103.4, Column 4J.
MODEL APPLICATION EXAMPLE: 1966 Falcon (8 cyl.) uses 38 amp. alternator (D0AZ 10346-E). Internal parts for this alternator are listed in Parts List Section 103.4, Column 4J.

10A313 ALTERNATOR MOUNTING PARTS

Alternator mounting parts are listed in chart form following the illustration below. Refer to the illustration to determine the name of the part required. Refer to the chart to select the appropriate part number. The chart is listed by year, model, engine and alternator make and amperage.

Attaching parts such as bolts, nuts, etc. are listed by code number. A listing of the code numbers and their corresponding part numbers and descriptions appears at the end of the chart.

10346 ALTERNATOR APPLICATION CHART

Determine year, model, engine, make of alternator and amperage or identification.
Find service Alternator as well as Voltage Regulator in adjacent column.
Parts are listed in order of Make and Amperage.
(Also see Page 1 of this section for PARTS LISTS instructions and ALTERNATOR IDENTIFICATION CHART)

10732 BATTERY MOUNTING PARTS

Battery mounting parts are listed in chart form following the illustration below. Refer to the illustration to determine the name of the part required. Refer to the chart to select appropriate part number. The chart is listed by year, model and amperage of battery.

Attaching parts such as bolts, nuts, etc., are listed by code number. A listing of the code numbers and their corresponding part numbers and descriptions appears at the end of the chart.

11001-2 STARTER MOTOR

HOW TO FIND STARTERS and COMPONENTS

By IDENTIFICATION:

1. Refer to Identification Chart below.
2. Check marking (on starter housing) against Identification numbers.

By MODEL APPLICATION:

1. Refer to Model Application Chart beginning on next page.
2. Refer to appropriate Year, Model and Engine.

3. Select and refer to appropriate Parts List Section and Number.
4. If basic number is not known refer to Illustration Page shown in the Ford Car Master Illustrations Catalog (Form FP-7635-B), or to the Alphabetical Index at the beginning of this section.
5. Select part number shown for affected Parts List. If more than one part number is shown refer to Description and Restrictions for clarification.
6. Quantity of parts shown in columns A, B or C etc.
7. Parts are listed numerically.

Identification Example C4OF 11001-A is listed in Parts List Section 110.2, Column 2A.

Model Application Example 1965 Falcon (8 cyl.) uses starter C2OZ 11002-A. Internal parts for this starter are listed in Parts List Section 110.2, Column 2A.

Wire assy. (eng. governor control valve)	12K454
Wire assy. (ignition coil ground)	12A069
Wire assy. (ignition current amplifier)	12045
Wire assy. (starter motor circuit jumper)	12638
Wire assy. (transistorized ignition system)	12071
Wire set (spark plug)	12259
Wiring assy. (ignition coil to distributor high tension)	12298

HOW TO FIND DISTRIBUTORS and COMPONENTS

To find Distributor (other than Calibration) Parts:

(Calibration Parts are listed by Code Number on Pages 9, 10 and 11 of this section.)

By IDENTIFICATION:

1. Refer to Identification Chart below.
2. Check marking (on distributor) against identification numbers.

By MODEL APPLICATION:

1. Refer to Model Application Chart beginning on Page 11.
2. Refer to appropriate Engine, Year and Model.

3. Select and refer to appropriate Parts List Section and Number.
4. If basic number is not known, refer to illustration page shown in the Ford Car Master Illustrations Catalog (Form FP 7635-B), or to the Index at the beginning of this section.
5. Select part number shown from appropriate Parts List. If more than one part number is shown, refer to Description and Restrictions for clarification.
6. Quantity of parts shown in columns A, B, C etc.
7. Part numbers are listed numerically.

Identification Example: C8AF 12127-A is listed in Parts List Section 120.2, Column D. Calibration parts are listed by Code number on pages 9, 10 and 11 of this section. (Cam-basic 12210, Springs-basic 12191-2 and Stop-basic 12202) are listed by Code Number etc.

Model Application Example: For an 8 cyl. 390 engine on a 1967 Ford use distributor C7AZ 12127-D (identified C7AF 12127-D or C7AF 12127-AA). Internal parts for this distributor are listed in Parts List Section 120.4, column G.

HOW TO FIND DISTRIBUTOR CALIBRATION PARTS

(Primary, Secondary & Vacuum Springs, Cam & Stop)

You must know the Distributor Identification Number -

1. Refer to Identification Chart beginning on page 1.
2. Check distributor for marking or identification number and locate same in chart.
3. Find Calibration parts listed by code number in adjacent columns.
4. Refer to Calibration Code and Part Number Cross Reference listed below for appropriate part number.

EXAMPLE: Calibration parts for Distributor identified C8AF 12127-A are -

PRIMARY SPRING - 238 - C5AZ 12192-F, SECONDARY SPRING - 244 - C5VY 12192-A, VACUUM SPRING - 225 - C0TZ 12192-A, CAM - 111 - C6TZ 12210-B and STOP - 7 - C0TZ 12202-A
